

I was very pleased to hear that KLOVE radio was in my area three years ago. Since then, it is all that I listen too. They have prayed for me and supplied me counsel upon the deaths of my parents, provided assistance in information during hurricanes in my region not to mention activities, concerts, and other venues. All of this will be lost in my opinion should your LPFM ruling go through. KLOVE is not just a source of relief in the western part of our nation, not even nationwide, but globally. Everyday I welcome KLOVE and introduce it to others. Please do not "break" an already great thing. Thank you for your time.
